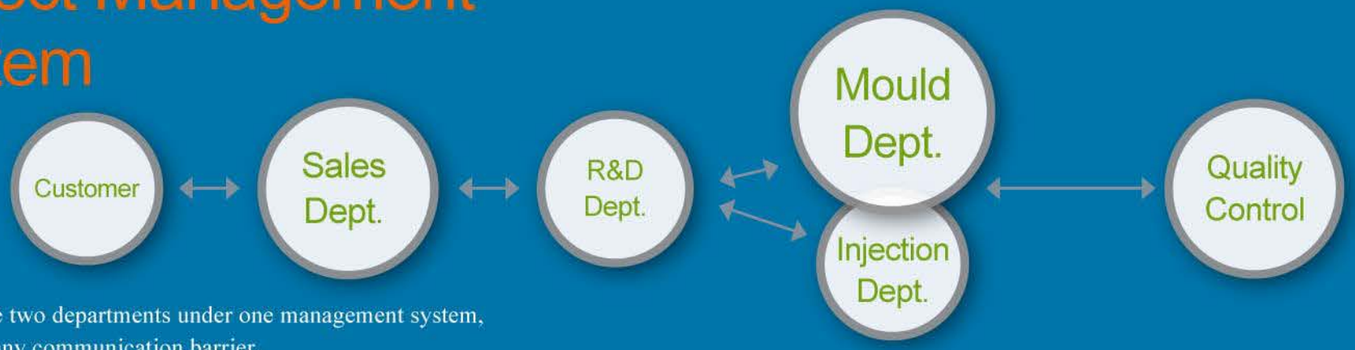
Our Philosophy

Established in 1987, Show Full Inc. is specialized in mould making, a daughter company of Show Fuu Plastics Co, Ltd., which is a leading injection company founded in 1984. Our goal is to combine the two companies' expertise, so as to offer our clients a complete production solution from tool design, manufacture, then to parts production and even to their final assembly. Throughout its history for more than 2 decades, Show Full Inc. has kept itself focused on research and technological development on mould making, especially focused in all size of plastic injection moulds. From high-tech industries such as aerospace, semi-conductor, medical equipment, implant parts, to general house appliances, furniture, office equipment, kitchenware, we all provide professional offer for your total satisfaction.

Our core technology is our outstanding engineering team with 20 year's experience, with first class machining equipment to ensure our products meet your high demands both in accuracy and durability.

Project Management System



- There are two departments under one management system, without any communication barrier.
- Any updated information can be shared in the organization instantly
- Prompt response and short delivery time without sacrificing the quality.
- Investing in various kinds' of training, as human resources are our greatest assets.
- CAD/SOLID WORKS/CAE/CAM are available upon customer's request.

Production Facts

- Mould Making: All kinds of Aluminum or Steel Mould, maximum sized up to 3700 x 1400 x 700 mm.
- Injection Production: with injection machines from 90T to 2200T, maximum weight of a single part can be 12 kg.
- Assembly Line: Maximum output can be 130 of 40 feet High Cube Containers per month.

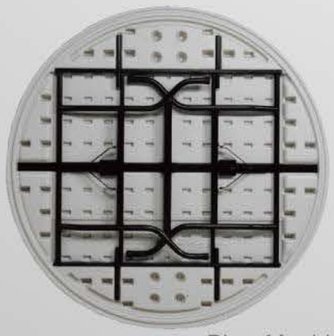
Sales Team Work

The conception of Show Full sales team is originated from the experience knowing the demands of customers who purchase plastic injection parts. Therefore, what we provide to our customers is not just the tools only; we also understand what customers needs from the parts made by our moulds. This unique background is the strength that connect our sales team with our clients closely. We know the tooling technology, we know our customer's demand, and we also know the final end user's demand.

Furniture Series

- Outdoor furniture
- Indoor furniture
- O/A furniture parts
- Stationary accessories



Blow Mould

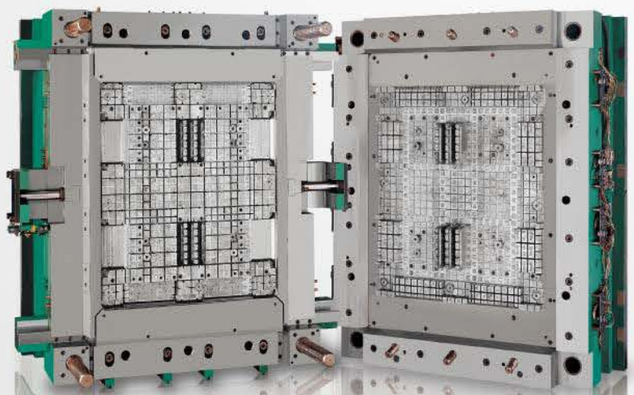
60”

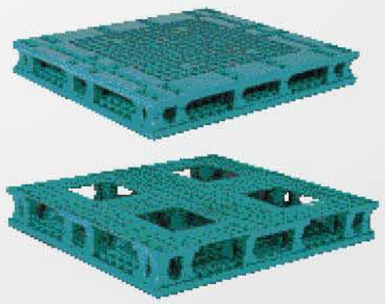
Pail Series

- Grease pail
- Paint pail
- Plastic bucket
- Blow moulded barrel

Designed for Performance

Pallet Series

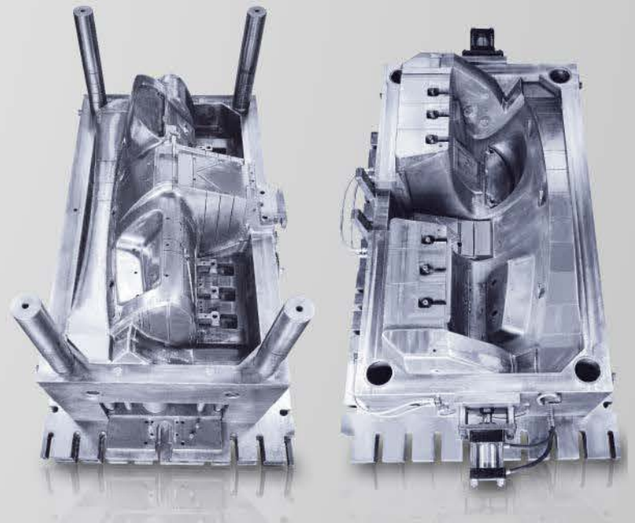




Crate Container Series

- Poultry crate
- Fruit & vegetable crate
- Food & beverage crate

Plastic Auto Parts Series



Show Full tailor-makes moulds for all kinds of vehicle plastic parts upon customers' special request. Based on our experiences in injection moulding as well as blow moulding techniques, Show Full understands how to produce moulds to satisfy all customers' high demands in accuracy, surface finish of plastic parts, and certainly with long life time of the mould. We are capable of producing steel or aluminum moulds to the size as big as 3700 x 1400 x 700 mm.

Show Full has experience in producing mould for:

- Front and rear lighting system
- Various interior or exterior components
- Plastic parts for engines' oil cooling system or air filtration system.
- Plastic parts for car doors' locking system.
